

TRUTH ABOUT "FRESH" GROCERY STORE BEEF...

It's often been **sitting out for DAYS** (sometimes weeks)
before you buy it.

- ✗ Exposed to:
- ✗ Air
- ✗ Light
- ✗ Constant handling

At Winola Farm,
we do it differently:

- ✓ Vacuum sealed
(no oxygen = no spoilage)
- ✓ Frozen at peak freshness
- ✓ No artificial color gases
- ✓ Better flavor + tenderness

That darker color
in our packages?

That's real, untouched beef—
it turns bright red when opened.
